1. NATURE AND CONTINUANCE OF OPERATIONS

Goldsource Mines Inc. (the "Company" or "Goldsource") is a Canadian resource company engaged in exploration activities. The Company's primary business objective is to advance the mineral properties at the Eagle Mountain Project though exploration and technical studies, targeting low-cost gold production at its Eagle Mountain Gold Project, located on its Eagle Mountain Property, in Guyana, South America. Goldsource is incorporated under the Business Corporations Act (British Columbia). The common shares of the Company trade on the TSX Venture Exchange under the symbol "GXS" and on the OTCQX under the symbol "GXSFF". The head office and principal address of the Company is 501-570 Granville Street, Vancouver, BC, Canada, V6C 3P1. The address of the Company's registered and records office is 19th Floor, 885 West Georgia Street, Vancouver, BC, Canada, V6C 3E8.

The Company currently has no proven or probable reserves and based on information to date, has not yet determined whether its Eagle Mountain Gold Project contains economically recoverable ore reserves. Consequently, the Company considers itself to be an exploration stage company.

At June 30, 2022, the Company had cash and cash equivalents of \$5.1 million. The Company will require additional funds to support its exploration activities and general corporate activities during the next 12 months. These factors represent a material uncertainty that may cast a significant doubt on the Company's ability to continue as a going concern. These condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes the realization of assets and liquidation of liabilities in the normal course of business.

These condensed consolidated interim financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts, the classification of liabilities, or the impact on the statement of operations that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

The Company's business could be adversely affected by the effects of the ongoing outbreak of respiratory illness caused by the novel coronavirus ("COVID-19"). Since early March 2020, significant measures have been implemented in Canada, Guyana, and the rest of the world by governmental authorities in response to COVID-19. The Company cannot accurately predict the impact COVID-19 will have on the ability of third parties to meet their obligations with the Company, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In particular, the continued spread of COVID-19 globally could materially and adversely impact the Company's business including without limitation, employee health, limitations on travel, the availability of industry experts and personnel, restrictions on planned drill programs, and other factors that depend on future developments beyond the Company's control. In addition, COVID-19 has resulted in a widespread health crisis that has adversely affected the economies and financial markets of many countries (including Canada and Guyana), resulting in an economic downturn that may negatively impact the Company's financial position, financial performance, cash flows, and its ability to raise capital. The current circumstances are dynamic and the impacts of COVID-19 on the Company's exploration activities, including the impact on the timing of its planned pre-feasibility study, cannot be reasonably estimated at this time. The COVID-19 cases and variants globally may impact the Company's operations due to additional government mandated shutdowns or closures.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 – Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB"). These condensed consolidated interim financial statements should be read in conjunction with the Company's consolidated financial statements for the year ended December 31, 2021, which include information necessary or useful to understanding the Company's business and financial statement presentation. In particular, the Company's significant accounting policies and use of judgments and estimates were presented in notes 2 and 3, respectively, of those consolidated financial statements and have been consistently applied in the preparation of these condensed consolidated interim financial statements.

Basis of preparation and measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of preparation and measurement (continued)

Additionally, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. Certain comparative figures have been reclassified to conform to the current year's presentation.

These condensed consolidated interim financial statements were approved for issuance by the Board of Directors on August 24, 2022.

Basis of consolidation

These condensed consolidated interim financial statements include the accounts of Goldsource and its wholly owned subsidiaries Eagle Mountain Gold Corp., a Canadian corporation, and Stronghold Guyana Inc. ("Stronghold"), a Guyanese corporation. Goldsource consolidates subsidiaries where the Company has the ability to exercise control. Control is achieved when the Company is exposed to variable returns from involvement with an investee and has the ability to affect the returns through power over the investee. Control is normally achieved through ownership, directly or indirectly, of more than 50 percent of the voting power. Control can also be achieved through power over more than half of the voting rights by virtue of an agreement with other investors or through the exercise of de facto control. All intercompany balances, transactions, income and expenses, and profits or losses have been eliminated on consolidation.

Use of estimates and judgements and COVID-19

The preparation of these condensed consolidated interim financial statements in accordance with IFRS requires management to make judgments, estimates, and assumptions that affect the reported amounts and the valuation of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed consolidated interim financial statements and the reported amounts of revenues and expenditures during the period.

COVID-19 has severely disrupted the global economy and financial markets. It is difficult to estimate the nature, timing, and extent of the business and economic impact on the Company's financial performance and this uncertainty could materially affect the Company's operations and financial condition. This uncertainty could also materially affect estimates including the valuation of long-lived assets, including property and equipment and mineral property assets. Actual results may materially differ from these estimates.

On October 20, 2020, the Company entered into an option and purchase agreement ("Option Agreement") to acquire a 100% interest in the Ann Mining Claim, at the Minnehaha Creek area, for total consideration of US\$290,000. The terms of the agreement include immediate access to the land for exploration purposes for 2 years, the right to purchase the claim for US\$250,000, and the right to terminate the agreement at any time, without any further liabilities. To June 30, 2022, the Company has made two option payments totalling US\$40,000.

Subsequent to June 30, 2022, the Company and the optionor amended the terms of the Option Agreement to extend the option period by two additional years, expiring on October 20, 2024, for total additional consideration of US\$40,000 (note 12). The remaining payments are scheduled as follows:

- US\$20,000 in October 2022;
- US\$20,000 in October 2023; and
- US\$250,000 upon the exercise of the option for the acquisition of the property.

3. MINERAL PROPERTY AND EXPLORATION AND EVALUATION EXPENDITURES (continued)

Eagle Mountain Gold Project - Guyana (continued)

The following table details the exploration and evaluation expenditures on the Company's Eagle Mountain Gold Project:

The Company pledged a \$265,818 (US\$206,200) (December 31, 2021 – \$261,818 (US\$206,200)) reclamation site bond, included in deposits on the condensed consolidated interim statement of financial position, held by the Guyana Geology and Mines Commission ("GGMC") for exploration permits on the Eagle Mountain Gold Project.

Goldsource's subsidiary, Stronghold, holds a prospecting license on the Eagle Mountain Property, which was renewed on October 18, 2019 for a three-year period, and subsequently renewed for an additional year (note 12). In August 2014, the GGMC granted a Medium Scale Mining Permit (the "Permit") to Kilroy Mining Inc. ("Kilroy") to mine gold, diamonds, precious metals and minerals on a portion within the Eagle Mountain Property. As the Permit is required under Guyanese law to be held by a Guyanese national, Stronghold has entered into agreements with Kilroy, a private arm's length Guyanese company, pursuant to which Stronghold and Kilroy will jointly operate the Eagle Mountain Gold Project. Kilroy has granted Stronghold the exclusive right to conduct mining operations on the Eagle Mountain Gold Project including any additional areas acquired by Kilroy. Stronghold will fund all expenditures on the Eagle Mountain Gold Project and receive 100% of all revenues, subject to applicable government royalties and a 2% net smelter return royalty to Kilroy as compensation for its participation.

⁽¹⁾ During the six months ended June 30, 2022, depreciation expense of \$87,015 (June 30, 2021 – \$155,804) was recorded in exploration and evaluation expenditures (note 3).

5. REHABILITATION PROVISION

The rehabilitation provision relates to the construction of the pilot plant and exploration activities on the Eagle Mountain Gold Project. Significant reclamation and closure activities include land rehabilitation, the removal of buildings and the processing plant, and other costs.

| | Six months ended | | Year ended |

| Changes in estimates | 70,531 | | 16,615 |
| Balance, end of period (year) | \$ 493,721 | \$ | 409,234 |

The present value of the rehabilitation provision, using an effective discount rate of 5% (December 31, 2021 - 5%), is currently estimated at \$493,721 (US\$374,975) (December 31, 2021 - 409,234 (US\$308,615)), reflecting anticipated cash flows to be incurred over approximately the next five years. The Company estimates that rehabilitation costs will be incurred in 2027. The undiscounted value of these obligations is \$451,218 (US\$349,050) (December 31, 2021 - 447,888 (US\$346,431)) calculated using a long-term inflation rate assumption of 8% for 2022 and 3% for 2023 to 2027 (December 31, 2021 - 4.5% for 2021 and 1% for 2022 to 2027).

In view of uncertainties concerning asset retirement obligations, the ultimate costs could be materially different from the amounts estimated. The estimate of future asset retirement obligations is subject to change based on amendments to applicable laws and legislation. Future changes in asset retirement obligations, if any, could have a significant impact.

9. LEGAL SETTLEMENT

In November 2019, Kilroy received a demand for foregone customs duty and taxes of \$419,272 (\$73,056,644 Guyanese dollars) from the Guyana Revenue Agency ("GRA"). The GRA alleged that the joint venture agreement between Kilroy and Stronghold had breached the terms of the customs duty and tax exemption granted to Kilroy during 2015 and 2016 on the purchase of mining equipment. In March 2022, the Company received a court judgement stating that Kilroy was indebted to the GRA for the customs and duty taxes in the amount of \$73,056,644 Guyanese dollars. On June 14, 2022, the Company entered into a settlement agreement with the GRA for the amount of \$84,337 (\$14,695,437 Guyanese dollars). The settlement deemed the case fully settled and released the Company from all claims arising from this matter.

11. FINANCIAL INSTRUMENTS RISK EXPOSURE AND MANAGEMENT

Financial instruments carrying value and fair value

The Company's financial instruments consist of cash and cash equivalents, amounts receivable, deposits, accounts payable and accrued liabilities, and lease liabilities. The carrying value of cash and cash equivalents, amounts receivable and accounts payable and accrued liabilities approximates their fair value due to the short-term nature of these instruments. The fair value of the Company's deposits approximates its carrying value as it includes supplier deposits and a bond held at a financial institution which are measured at amortized cost.

The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability (for example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value option contracts), or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity). The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. The level of measurement for each financial instrument is determined by the lowest level of significant inputs.
